GRANULATED SALT

Top-Flo® Granulated Salt

Intended for a variety of food-processing applications, including baking, cheese manufacturing, meat processing, seasonings and prepared mixes. Non-food applications include acting as a carrier or a chemical and bulking agent in many household and personal care products. Contains yellow prussiate of soda as an anticaking agent.

Top-Flo® Plus Granulated Salt

Intended for a variety of food-processing applications, including baking, cheese manufacturing, meat processing, seasonings and prepared mixes. Non-food applications include acting as a carrier or a chemical and bulking agent in many household and personal care products. Contains yellow prussiate of soda as an anticaking agent. (Contains lower levels of calcium and magnesium than our standard Top-Flo®.)

Hi-Grade Granulated Salt

For use in a variety of food-processing applications, including baking, canning, pickling, seasonings and prepared mixes. Additive free. Non-food applications include acting as a carrier or a chemical and bulking agent in many household and personal care products.

Iodized Hi-Grade Granulated Salt

For use where a nutritional source of iodine is desired; used in formulations such as spices and seasonings, canned pet foods and snacks.

Flo-Ever® Coarse Granulated Salt

Primarily for use in cheese production when a more coarse cut of salt is desired. Contains YPS as an anticaking agent. Bulk and mini-bulk only.

Blending Hi-Grade Granulated Salt

Intended for a variety of food-processing applications, including baking, cheese manufacturing, meat processing, seasonings and prepared mixes. Non-food applications include acting as a carrier or a chemical and bulking agent in many household and personal care products. Contains tricalcium phosphate as an anticaking agent.

Fine Blending Granulated Salt

Intended for a variety of end-use applications. It is particularly well suited as an ingredient with liquids. Manufactured in three different varieties: untreated – contains no anticaking or free-flowing additives or conditioners; treated – with YPS or TCP anticaking agents (tricalcium phosphate is water insoluble, and is therefore not recommended for brining). Also available as iodized with YPS.

Hi-Tex® Granulated Salt

Intended for a variety of end-use applications. It is particularly well suited for use in dry salt dispensing and brining applications. Food uses include baking, cheese manufacturing and meat processing. Non-food usage includes textile dyeing. Contains yellow prussiate of soda as an anticaking agent.
