

# Diamond Crystal<sup>®</sup> Iron Fighter<sup>®</sup> Sun Gems<sup>®</sup>

## Naturally evaporated softener salt with Iron Fighter<sup>®</sup> Formula

Our high purity water softener salt contains up to 99.6% pure salt. Evaporated naturally by the sun and wind, these large solar crystals have a clear, clean appearance and a very low insoluble content. They also contain a highly effective rust remover which helps to prevent rust stains on laundry and household fixtures. Virtually 100% water soluble, they minimize mushing, bridging and rust buildup in your brine tank—helping to keep your water softening unit running smoothly.

- Poly bags made of 50% recycled material
- NSF certified, these pellets are recommended for all types of softeners, particularly in regions of high-iron water content
- Available in limited areas
